

FOR IMMEDIATE RELEASE:

## TCGRx ANNOUNCES RELEASE OF NEW PHARMACY FIXTURES LINE

### ***New HDStock™ optimizes space and improves workflow efficiency.***

**Powers Lake, Wisconsin, December 7, 2015 –**

TCGRx (The Chudy Group LLC), the industry-leading supplier of pharmacy automation and workflow, announced at the [American Society of Health-System Pharmacists \(ASHP\)](#) Midyear Clinical Meeting and Exhibition in new Orleans, the launch of [HDStock](#), a complete line of high-density pharmacy fixtures.

The market is constantly driving all pharmacy operators to invent new ways of doing business to stay competitive and profitable. TCGRx is known for being an innovator that continues to develop solutions for today's most urgent pharmacy issues. Duane Chudy, CEO of TCGRx said, "We have been designing pharmacies and integrating automation for years. We have worked with a premier product to accomplish designs, workflow and return on investment, and are now making this fixture line available for the general pharmacy market."

HDStock (High-Density) is a product that reduces a pharmacy's medication storage footprint up to 50%, opening up space to implement patient consultative services, vaccination rooms, or expand retail areas, leading to more profit without expanding an existing floor plan. Inpatient pharmacies as well as retail pharmacies benefit from reduced walk time to fill scripts and to stock items.

With six different fixtures, HDStock addresses the unique layouts and workflows for every type of pharmacy. These fixtures include high-density cabinets that can store up to 1,100 items in less than 11 square feet, workstations, shelving and carousels that allow multiple techs to fill prescriptions simultaneously. As a result of space limitations in their New Berlin location, [Skywalk Pharmacy](#) employed the services of TCGRx to optimize their pharmacy workflow using HDStock. Julie Gall, Administrative Manager of Skywalk complimented, "Our efficiency has definitely improved due to the enhanced workflow afforded by the TCGRx HDStock system." Without HDStock, Skywalk would have required relocation to a larger space, and would still have longer fill times.

HDStock comes in many configurations, to fit any size pharmacy, and is expandable to fit a pharmacy business' growing needs. Fixtures can also be customized with colors and finishes to match the look and design of an existing pharmacy.

TCGRx will be previewing HDStock at the ASHP Exhibition in new Orleans beginning December 7, booth #2039.

#### About TCGRx

TCGRx is a leading supplier of pharmacy automation, offering scalable solutions that range from simple packaging technology to enterprise-wide perpetual inventory management.
