H&W software covered for Day One support with new CICS release

BOISE, Idaho – December 11, 2015 – H&W Computer Systems (H&W) has announced it is providing Day One support for the latest version of its software running with IBM's new 5.3 release of CICS, which is available today. H&W is offering Day One support for the SYSB-II®, SYSD®, CPMS®, JES2Web®, SYSJ, SYSM®, SYSS®, and Wizard Mail software.

"At H&W, we understand that customers rely on our solutions for their essential operations," said Matt Link, President of H&W. "We provide Day One support to give customers confidence that they can upgrade to the latest version of CICS whenever they're ready. It's one more way to provide the top-flight service they deserve."

As an IBM Advanced Business Partner, H&W participates in the IBM vendor program so it can be prepared to offer services like Day One support. "We watch for upcoming IBM changes to ensure that our software will be compatible," said Link. "We continue to anticipate the needs of our customers in order to deliver solutions that meet or even exceed their expectations."

Customers can visit <http://www.hwcs.com/info-center/specifications?id=hwcs-pub> for more information about specific products and releases supported with CICS 5.3.
