

Sonovision Group North America Obtains AS9100C Aerospace Quality Standard Accreditation

By Vincent Laithier, MBA
December 14, 2015

Ottawa, ON – Sonovision Canada Inc. along with its subsidiary, Sonovision USA Inc. (Sonovision) announced today that they have officially been accredited to ISO9001:2008 & AS9100C quality standards by SAI Global, a quality management systems registrar. This certification was achieved at each individual Sonovision Canada Inc. office including Ottawa (ON) Headquarters, Montreal (QC), Edmonton (AL), as well as Sonovision USA Inc. Headquarters in Phoenix (AZ).

Sonovision places a high degree of importance on the quality of [Technical Publications services](#) it provides to its clients across North America but also on listening to its customer needs and requirements. This achievement is a testament to the hard work and tremendous dedication to quality of our entire team.

Sonovision endeavors to stay ahead of the curve regarding Aerospace industry trends – Accreditation to the AS9100C is no exception. At the 2014 NBAA in Orlando, a Director of Procurement for a major aerospace prime stated, “Going forward, accreditation to the AS9100C standard is a must if you want to deal with (our company) in North America”. This message did not fall on deaf ears of senior management at Sonovision.

The Sonovision team looks forward to future challenges and to continue to meet and exceed its client expectations in 2016 and beyond.
