

Rigaku to present newest X-ray analytical instrumentation at Pacifichem 2015

Rigaku Corporation
9009 New Trails Drive
The Woodlands
Texas 77381 USA

Rigaku will showcase its X-ray analytical product line at Pacifichem in Honolulu, Hawaii

December 15, 2015 – The Woodlands, TX. [Rigaku Corporation](#) will be presenting its diverse lines of X-ray diffraction (XRD) and X-ray fluorescence (XRF) instrumentation at Booth 506 at The International Chemical Congress of Pacific Basin Societies ([Pacifichem 2015](#)) in Honolulu, Hawaii, December 15-20, 2015. The conference theme is *Chemical Networking: Building Bridges Across the Pacific* and will be the seventh in the series of cosponsored scientific conferences of Pacific Basin Chemical Societies.

Rigaku is a global leader in X-ray analytical instrumentation and will be exhibiting their unique benchtop products. On display will be the fifth generation [Rigaku MiniFlex](#) benchtop X-ray diffractometer, the [Rigaku Supermini200](#) benchtop wavelength dispersive X-ray fluorescence (WDXRF) spectrometer and the [Rigaku nano3DX](#) X-ray microscope (XRM), which enables microtomography of large samples at high resolution.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,100 people in the manufacturing and support of its analytical equipment, which is used in more than 70 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
