TIMBERLY COMPETES IN GREAT PORTABLE SAWMILL SHOOT-OUT Indianapolis-based sawmill company showcases M285 Portable Sawmill

Indianapolis, IN – With large crowds and cameras rolling at the 2015 Great Portable Sawmill Shoot-Out, the Indianapolis-based [Timberly Portable Sawmills](http://www.timberly.com) showcased their M285 sawmill on the big stage at the much anticipated event. Attended by sawmill companies throughout North America, the Great Portable Sawmill Shoot-Out takes place every other year during the prominent Paul Bunyan Show in Old Washington, Ohio but the results are acknowledged worldwide.

Equipped with their thin-kerf, trailer-ready [M285 Portable Sawmill](http://www.timberly.com), Timberly sawyer Chad Sanders and tailman Jake Welker sawed four logs into lumber at an average rate of 506 board feet per hour - an 18% production increase from their 2013 Shoot-Out debut! Along with a cutting efficiency of 3% above the event's production scale, the Timberly team gave an impressive performance at the Shoot-Out.

The Timberly M285 Portable Sawmill features:

- Log Capacity: 28" Diameter x 17' 2" Long
- Power Options: Gas 14HP, 20HP, or 25HP
- Portability: Trailer-Package Standard
- Production: 506 Board Feet Per Hour
- Made in the USA

"The Shoot-Out went really well and we had a great chance to demonstrate what Timberly sawmills are capable of," said Chad Sanders, Timberly Manager. "The M285 has become a viable option for sawyers looking for an affordable and quality portable sawmill."

Timberly M285 Portable Sawmill starting at \$7,295
