Who is Intuitive Safety Solutions?

Intuitive Safety Solutions, Inc. (ISS) is a Pacific Northwest based safety consulting services company with project experience spanning all over North America. ISS has over 30 years of combined construction, energy and oil and gas industry experience.

ISS's mission is to assist it's clients by creating unique solutions that ultimately help in the development of a total safety process, protecting our clients' greatest assets, their employees.

Your Partner For Success!

At ISS, we pride ourselves in understanding what our clients need and the challenges in their businesses. Our dedication leads to providing the highest quality HSE services tailored to these needs and aids in the achievement of client objectives. Client satisfaction is our "Top Priority" and we guarantee it!

We are HSE professionals who hire and manage HSE professionals. We promote continuing education and ensure that qualifications and certifications are maintained. To ISS, this is as a means of quality assurance and we use it as a leading indicator for expected performance. As a result, we have built a strong team of people and have many satisfied clients.

What is ISS Certified?

For a HSE professional to become ISS Certified, he or she must meet the highest standards and pass our stringent 11 point qualification process.

We seek only the most qualified, knowledgeable and experienced HSE professionals with proven performance. Additionally, we seek people who share our vision and values.

Only then will we consider them for employment and ISS Certification.
