EASYTRIMMER

Reliable automated letter bending technology for sign makers

EASY TO MAKE. EASY TO USE.

Compact and easy to use, EasyTrimmer processes most of the market's available conventional plastic or aluminum trim cap, automatically cutting to length, notching, and marking bend points for manual bending. With its wide range of V-cut sizes – from 45° to 120° – EasyTrimmer creates beautiful edges that add depth and dimension to your channel letters and signs.

Used in concert with any of our ChannelBender® series automated channel letter benders, EasyTrimmer's accuracy and reliability dramatically increase your shop's efficiency and productivity.

U.S. Patent Nos. 5589090; 5787750; 5870919; 5966974; 5992485; 6128940; 6405574; 8327679; 7694543; 7441434; and 7878039. Other U.S. and international patents pending. The ChannelBender® Series, AdamsTech's line of automated channel letter benders, is the fastest, most reliable, most precise technology available to sign makers. Rigorous testing shows ChannelBenders can complete the process of bending returns 15% to 30% faster than the nearest competitive machines, and cut hand finishing time by an additional 30%. Customer feedback indicates a return on investment commonly occurs between 12 and 18 months.

EasyTrimmer is our easy to use solution for automatically cutting, notching, and marking trim cap. It works with most of the market's conventional plastic or aluminum trim cap, and with its wide range of V-cut sizes, creates beautiful edges for letters and signs. Used with any ChannelBender, the accuracy and reliability of EasyTrimmer dramatically increase your shop's efficiency and productivity.

The price of a fully-equipped ChannelBender includes set-up, installation, and training. Additionally, one year of software updates, one year of phone and remote access tech support from a U.S.-based technician, and a one year warranty are included. There is no optional equipment and there are no hidden fees. By the conclusion of your comprehensive training, you will know how to competently operate and maintain your new ChannelBender.

AdamsTech and SDS Korea are automated metal bending experts, the inventors and original patent holders of this type of technology. Over 2,000 machines have been sold worldwide. Our 17 years of experience manufacturing and servicing these systems, combined with our dedicated team of technicians, create the very best service and support infrastructure in the industry.

Specifications		EasyTrimmer
Power	System	220VAC, 15A, 50/60Hz, 1P
Dimensions (W × D × H)	System	63"×26.75"×53.25"
(,	Coil Cassette	150' industry standard coil
Features	V-cut (relief notch)	45°, 60°, 70°, 80°, 90°, 100°, 110°, 120° on flange
	Cut-off tool for batch processing	Yes
Bending	Maximum angle	Manual bending at marked bend points
Material Coil Specifications	Outside diameter	150' industry standard coil
	Thickness	.04" (1.0 mm)
	Height	1", 1.5", 2.0" (25 mm, 38 mm, 50.8 mm)
