Dear Albert:

On behalf of the Verizon Wireless Leadership team, I want to thank you for your dedication and tireless effort toward the successful acquisition and integration of the Rural Cellular markets into Verizon Wireless over the past two years.

The customer migration team successfully completed the largest handset migration in our company's history using creative solutions. I applaud the inventive techniques used such as tiered handset offers, dual POS, customized "on-line store" tools, customized tracking system (COTA) and the preprogramming and direct fulfillment of devices. In addition, your team launched a national Lifeline program and opened a national call center to support our 17,000 Lifeline customers.

Some additional key highlights of this merger:

- Working to obtain approval from the DOJ and FCC and closing this deal on August 7, 2008.
- Ensuring the markets were properly segregated for operation into Integrated, Trust and Virtual Trust markets.
- Integrating the RCC workforce of 975 employees to our VZW systems and payroll.
- Integrating our financial and management reporting systems.
- Deploying 1,025 CDMA cell sites with EVDO, while maintaining the GSM network for roaming.
- Providing 320,000 customers new CDMA devices.
- Porting 101,000 postpay and 3,500 prepay customers to VZW rate plans.
- Provisioning and converting 296,000 post-pay and 20,000 wholesale customers into VZW billing systems.

This acquisition and integration provided the company with valuable key learnings that are now being adopted by our Alltel integration team to ensure a smooth transition.

These large, complex integration efforts can only be successful when employees, like you, take full accountability and deliver. Thank you again for your dedication and congratulations on the successful integration of Rural Cellular into Verizon Wireless.

Sincerely,

AT&T

To whom it may concern:

I am pleased to extend this letter of recommendation to Mr. Albert Herrera.

In a major AT&T's data conversion and operations transition project, Mr. Herrera's technical and managerial assistance contributed to considerable reduce transition costs, improve customer service, and minimize the impact of the transition on AT&T's operations groups.

Mr. Herrera's performance in all activities assigned to him has been of the highest standards. I recommend him fully.

Sincerely,

Charlie Smith
Staff Manager
AT&T Special Long Distance Product Development

The RIN is like the Internet, with a reach that goes to the Local Group of Galaxies, accessed with cellular phones

As a writer, Al Herrera has published several books

Rupturian Vision of Reality

Last call from Earth

Al Herrera is the creator of the Rupturian concepts

Parallel dimension

*In Google there are
thousands of
references about the
Rupturian concepts, in
several languages*

Michael Martinez
Director of the film Rupturian

Michael Martinez

has over 15 years of technical and artistic experience in digital cinema, very appropriate to Direct Rupturian, a Sci-Fi movie that requires computer generated images

Alberto Farres
Production Manager of the film Rupturian

Alberto Farres

*Has over 15 years of
experience in all facets of the
TV and movies industry.*

*He is well known in the
TELEVISA network*

In summary

A highly qualified Mgmt team that can deliver a film of artistic and technical quality, within the established budget
