## Grand Opening of Addison Sports Clinic in Cobb County

**KENNESAW, GEORGIA - A New Concept in Sports Injury and Rehabilitation Celebrates Grand Opening Feb 18<sup>th</sup> 2016.**

Addison Sports Clinic is a new concept in sports medicine. The new clinic will open its doors to the public on February 18<sup>th</sup> 2016, providing services in physical rehabilitation, sports medicine, pain management, physiotherapy exercise, chiropractic, and more. Addison Sports Clinic is a total treatment facility of sports injuries, as well as peak performance programs to give athletes a competitive edge.

Addison Sports Clinic, located inside Medici Medical Arts, incorporates unique treatment practices such as Active Release Technique (A.R.T.), and Spinal Decompression to treat injuries without surgery. The 20,000 sq ft facility also offers hard-to-find medical equipment that increases recovery from sports injuries such as hyperbaric chambers, cryo-therapy, and one of the only Class 4 Cold Lasers in Metro Atlanta.

Owner, Dr. Jason Addison, is a Doctor of Chiropractic Medicine. He is full-body certified to practice Active Release Technique for pain relief and physical rehabilitation. He began practicing in 2007 and enjoys helping people recover from injuries without the use of surgery or prescription medication.

“We practice techniques that help professional and recreational athletes get back in the game quicker, by avoiding the down-time of surgery. Often, surgical procedures are done too quickly, without getting a second opinion or trying rehabilitative programs, like Active Release,” advises Dr. Addison.

“We are a pain rehabilitation facility that offers alternatives to surgical procedures and heavy medications that can be addictive and have other side effects. Our natural treatment methods and medical equipment can help avoid costly medical procedures and extended down-time.”

This new and expanded medical facility also has a large weight training gym, locker rooms and showers, and private treatment rooms. The goal of Addison Sports Clinic is to help athletes and patients get back into the game as soon as possible, without the use heavy pain-killers or surgery.

Make plans to tour this full-service sports clinic located near Town Center Mall, next door to PGA Tour Superstore in Kennesaw, Ga.

The grand opening of this beautiful facility will have special rates for new clients, offer free consultations and examinations, and valuable give-aways courtesy of PGA Tour Superstore. Come meet the staff members of Addison Sports Clinic and learn how these rehabilitation and medical techniques can help you get back in the game.
