

Defence Logistics Eastern Europe 2016

7 – 8 March 2016, Prague, Czech Republic

Dear Colleague,

It is with great pleasure that I invite you to participate in **Defence Logistics Eastern Europe** taking place between the 7th and 8th of March 2016 in Prague.

As nations in Eastern Europe embark on enhancing their military capabilities in line with other NATO member states and increase spending to face very real threats close to their border, the Combat Service Support has become a focus of many armed forces wishing to ensure effective defensive and peacekeeping operations, domestically as well as internationally.

There is therefore a need for a high level meeting that brings together senior military leadership, project decision makers and subject matter experts alongside contractors and cutting edge industry solution providers to collaborate on future endeavours that will enhance the security and stability of Eastern Europe and its neighbouring countries.

I believe Defence Logistics Eastern Europe is the perfect environment for this collaboration, hence lending my support behind it as chairman.

I would ask you to pay particular attention to our conference agenda which has been put together with great care to give you the very best opportunity to benchmark and learn from subject matter experts relating to the enhanced logistics capability.

Only through learning and networking with our peers can we enhance and improve our ideas and execution of military projects, I urge you to join us in March 2016 with many other likeminded individuals to ensure you too can benefit from this unique forum.

Yours Sincerely,

Brigadier General Jaromir Zuna, Director Support Division,
Armed Forces of the Czech Republic
