

VALVTECHNOLOGIES

Quick-Ship Program

Critical Valves You Need - Shipped in 24 Hours

Need a Valve Now?

With ValvTechnologies' Quick-Ship program you can get the original, industry leading zero-leakage metal seated ball valve shipped to you in as little as 24 hours!

Industry's Fastest Turnaround

ValvTechnologies superior V Series zero-leakage metal seated ball valves are stocked and ready to ship within 24-48 hours.

Benefits:

- Readily available stock: on the shelf and available for the whole of Northern America and Canada
- Shorter lead times: 24-48 hours standard Quick-Ship lead time

100% Factory Assembled & Tested

ValvTechnologies valves are assembled, inspected and tested before shipment to ensure zero-leakage, which means you receive the most reliable solution the market has to offer.

Benefits:

- Increased reliability
- Increased safety
- Total traceability

End Prep, Installation & Commissioning

ValvTechnologies satellite operations Portersville PRD and Celtex Industries stock and quick-ship V Series valves to ValvTechnologies' North American distribution network with 24-48 hours.

Benefits:

- Portersville PRD and Celtex Industries can fully end prep and retest valves to factory specifications prior to shipping
- Portersville PRD and Celtex can oversee installation and commissioning of valves to ensure they remain compliant to warranty conditions

The ValvTechnologies' Advantage

Longer service life, reliable maintenance-free operation and a four-year leakage warranty: this is just the start of what you get with ValvTechnologies' seat-supported severe service metal-seated ball valves. The V Series' proven seat design provides improved performance, far beyond the capability of other industry options.

Made in the USA

The finest metal seated valves in the world are engineered and manufactured right here in the United States. We're proud of our product quality, and even more proud that we craft all our products in Houston, Texas.

Benefits:

- Increased reliability
- Increased safety
- Guaranteed quality

Four-Year Warranty

The very best warranty* in the industry. ValvTechnologies' four-year warranty guarantees the product will be free of defects in material and workmanship, under normal use and proper operation, for a period of four years from date of shipment from seller's plant.

Benefits:

- Lower cost-of-ownership
- Increased reliability

*steam and water applications
