

**COMMUNICATIONS LIFECYCLE MANAGEMENT**

**Gain Visibility, Control and Guaranteed Savings with One Integrated Fixed/Mobile Platform and Expert Managed Services**

Comview simplifies management of fixed and mobile telecommunications — from procurement to bill payment and points in-between — so your staff can focus on higher value activities while gaining valuable insights and sustainable ROI.

**Fixed Voice and Data Management**

From sourcing and order management to invoice processing and bill payment, we help you build and maintain accurate inventory, detect and recover billing errors and more.

**Mobility Management**

Manage all of your corporate and BYOD devices, from order request and fulfillment to help desk and mobile device management.

**Audit & Optimization**

Comview finds errors and optimization opportunities in your fixed/mobile telecom, and helps you take action for peak efficiency.

**Call Accounting**

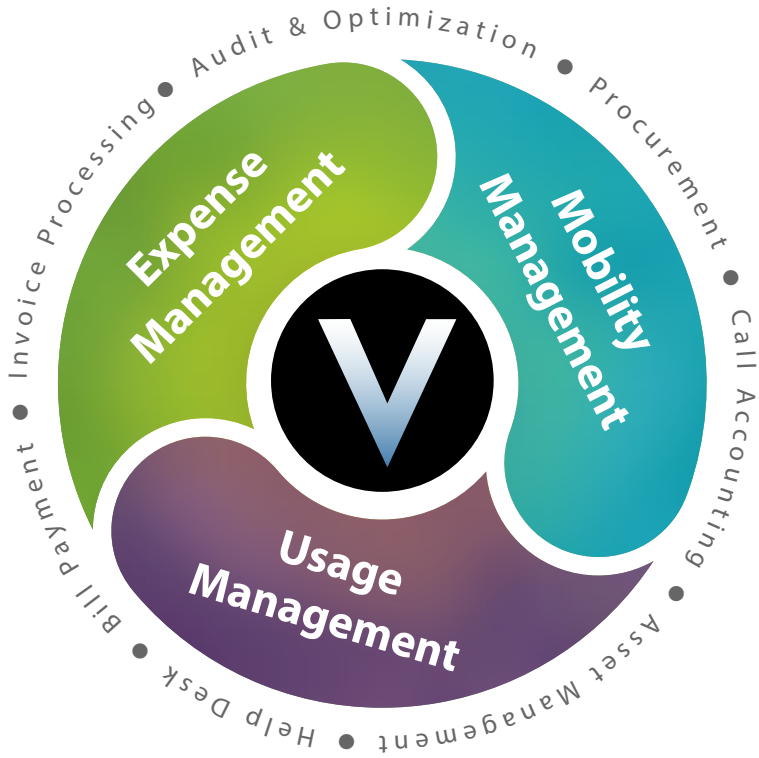

Keep track of real-time PBX and VoIP activity, allocate usage, monitor network efficiency and utilization, and identify harassing or threatening calls.

**Asset Management**

Gain visibility across all your IT, telecom and mobility inventory to know what assets you own at any given moment for improved management and future planning.

**Procurement**

Benefit from a single integrated platform for procurement and order management. Self-service and administrative options provide flexibility to offer what is needed, while maintaining consistency and control.

**One Integrated Platform...One Dedicated Team... One Goal...Your Satisfaction**

If you need simple call accounting, telecom expense management or integrated fixed and mobile communications lifecycle management, Comview’s flexible cloud-based platform and friendly expert services are designed to work with your unique needs and grow with you.

**Guaranteed Savings**

Whether it’s expense reduction from invoice management, auditing and optimization or process improvements from consolidated visibility, inventory and order management, Comview’s integrated software and experienced, customer-centric professionals provide guaranteed savings and top-ranked customer satisfaction you can count on.

### Comview's integrated platform lets you manage all telecom usage and assets from one place
