

Cloud Hosted PBX

Cloud Hosted PBX Services for your Business

Our Cloud Hosted PBX services offers your business all the features and functions you need, without the costly expense of owning, operating or maintaining your own PBX equipment. With Vox Connect's ultra-modern *Voice over IP* solution, you will have cutting-edge digital technology at your fingertips. This highly cost-effective solution can cut your telecom costs in half, while adding new capabilities that help you to better run your business. Vox Connect's Cloud Hosted PBX service is instantly scalable, fitting the needs of any size business.

Vox Connect is a cloud-based telecom services provider serving small and medium-sized businesses throughout the Chicago-metro area since 2006. We provide personalized service, high-quality cost-effective telecom solutions, configured to fit your business -- and your budget.

- 📶 Secure, reliable, carrier-grade PBX facilities.
- 📶 Cloud-based telecom solution that eliminates the cost and complexity of PBX hardware.
- 📶 Personalized service including on-site assessments, installation and setup.
- 📶 Cost-effective, custom-designed telecom solutions to fit your business needs.
- 📶 Highly-trained technical staff.
