Everything You Need from Boards to Finished Assemblies

We are a supplier of high-quality Industrial and Embedded Computers and Peripherals. We rise above others by providing complete out-of-the-box solutions supported by expert-level needs analysis, custom design, configuration, and deployment services. We are industry leaders in PC-Based Automation and Industrial Networking, and we are proud to be a Microsoft Embedded OEM Partner and a Gold Intel Partner. With more than 35 years in Industrial Computing and Factory Automation, and the industry's largest selection of computing products from the world's leading manufacurers, we are the one-stop answer for any product or application need. We don't just sell outstanding computing products—we deliver solutions.

Industrial Computers

Industry Leading Industrial and Embedded Computer Products.

> Fanless Systems
> Rackmount Computers
> Single Board
> Human Machine Interface
> Mobile Computing
> Motherboards
> Industrial Panel PCs
> Server grade IPC

Peripherals

Full line of peripherals to deliver complete, fully integrated solutions.

> Storage
> Power Supplies
> Displays
> Keyboards
> Pointing Devices
> Cables
> Framegrabbers
> USB 2.0/3.0
> Connectors

Control & Automation

Leading-edge hardware and software for secure remote access, networking and data acquisition.

> Secure Remote Access
> KEP OPC Software
> Industrial Communication
> Data Acquisition

Services

Expert custom design, configuration and deployment services.

> Technical and advisory
> Integration
> Configuration
> Software serialization
> Kitting
> Documentation

Windows Embedded Partner

intel Technology Provider Gold 2013

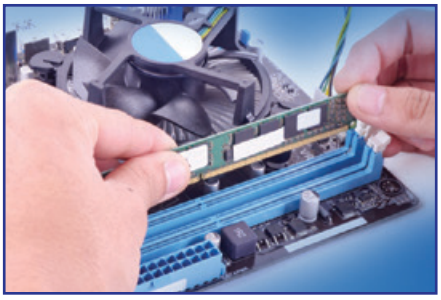
Why should you choose Coast Automation?

Product Selection

Coast is an authorized distributor for the leading Industrial and Embedded Computer manufacturers in the world. In addition to our full selection of industrial and embedded PCs, we offer peripherals, software and custom services. Everything you need for a complete computing solution is here in one convenient location, including power supplies, keyboards, displays, and cables. We deliver all this and more with fast and convenient online systems configuration.

Solutions and Technical Services

We are a total-solutions partner. With more than 30 years in industrial computing, factory automation, and remote access, we've designed solutions for a wide range of environments with unique demands, challenges, and extremes. Our experience enables us to quickly understand your needs and address the whole solution, not just the product selection. We are knowledgeable; we know our product lines and applications, and we have immediate access to manufacturer's technical resources. Internally, we offer a full line of technical services including configuration, serialization, kitting, and documentation. We are not trying to sell you just a computer, we are striving to be your solutions partner.



Customer Care

In business, everyone talks about customer service. At Coast, the difference is in the delivery. Communication separates us from the competition. We are accessible, responsive, and completely customer-focused. We add the personal element to the online experience and we will customize our services to fit any end-user or OEM request. Everything we do is designed to make it easier for you to do business with Coast.

Relationships

We understand that customers have many options when considering a technology purchase. At Coast, we add value without added cost through our speed, convenience, and the confidence of having a trusted business partner standing behind every product and solution delivered. We are not a distributor—we are a trusted supplier of leading technology solutions, backed by outstanding service and technical support.
