Type II CEUs for BCBA's

High-level trainings designed with **you** in mind

Under the direction of Dr. Linda LeBlanc, BCBA-D and Dr. Tina Goldsmith, BCBA-D, the Trumpet Learning Center team has created a well-rounded compilation of training materials and CEU courses that help set the educational bar for future clinical leaders internationally.

RBT Training

Developed by *and for* our team

Designed to meet and surpass the standards of the BACB's newest credential - the **Registered Behavior Technician™ (RBT™)**. The Development Team at Trumpet Learning Center has taken a ground-level approach to building this comprehensive curriculum that covers key areas for current and prospective behavioral technicians.

Why Choose Our Modules

- Content developed under the direction of Linda LeBlanc, PhD, BCBA-D and Tina Goldsmith, PhD, BCBA-D
- Blended learning: interactive multimedia and video-based modules
 - Deadline settings and email notifications to manage your team
 - Direct access to BCBA's for questions and support
 - Graded quizzes to assess knowledge acquisition
 - Supplemental resources and study materials

Our e-learning courses are conceptually sound and technically precise. They are structured to progressively build the knowledge and competency needed to provide evidence-based services to individuals with autism and related developmental disabilities.

***Discounts for group sales**

***Comprehensive RBT competency assessment package**
