VANGUARD INTRODUCES PIONEER - PREMIUM HUNTING BAG SERIES

#AdventureStartsHere

FOR IMMEDIATE RELEASE: 03/22/2016

WHITMORE LAKE, MI – VANGUARD, global leader in photo-video accessories and sports optics, is proud to introduce the PIONEER Series of hunting bags. Featured in forest green or Realtree Xtra® camouflage, the Pioneer line includes a backpack, shoulder bag and waist pack option. “PIONEER perfectly complements VANGUARD’s successful line of hunting products, as we now offer bags that can match our highly regarded riflescope, binocular and spotting scope solutions in both quality and function,” said Director of Global Marketing Joshua Pawlak.“

The PIONEER backpack - available in large (2100), medium (1600) and small (975) sizes, as well as a sling version (1000) for carrying over one shoulder - features numerous key components that set it apart from other bags in its category. Among these features are its stealth water-repellent, durable yet soft and quiet high-count tricot fabric, combined with a waterproof, zippered pocket for personal items, made especially easy-to-access due to its bright orange zippers.

Carry your bow or rifle safely and securely in place with VANGUARD’s Butterfly Attachment Carrying System. Its adjustable holding pocket is made perfect for any type of rifle butt or bow cam.

PIONEER's breathable mesh Air System keeps the pack dry, and the 2100 and 2100 RT model go a step further by featuring two aluminum bars that provide stability, while at the same time keeping the pack away from the body as a means for extra ventilation. All of the pack options feature a bright orange rain cover for gear protection and personal safety. VANGUARD really did think of everything with this bag!

Vanguard's PIONEER 900 and 900RT (Realtree Xtra®) shoulder bags feature the same high quality fabric as the backpack, while utilizing a large padded shoulder strap and additional carrying handle. Plenty of storage, as well as six additional straps for carrying waterfowl, make PIONEER 900 a cleverly constructed and highly convenient carrying bag option.

The PIONEER 400 and 400 RT (Realtree Xtra®) waist packs complete the line by providing a convenient smaller option for carrying essentials around one's waist. The built-in, removable hand warmer make it a unique tool when outside in the cold for extended periods of time.

Your adventure should never be limited by the gear you use. With PIONEER by VANGUARD, every little detail and function has been perfectly attuned to the user scenario and hunter's DNA. These bags are built to trek challenging terrains, while supporting the most demanding and active trackers. All of VANGUARD's bags have been tested and challenged in the most rigorous of outdoor conditions, ensuring that they will hold up in any weather, while providing the ultimate experience of comfort and convenience.

PIONEER Lifetime Warranty

Vanguard will repair any damage or defect for any reason free of charge for all Pioneer outdoor bags. If we are unable to perform a functional repair on your pack, we will happily replace it. Vanguard stands behind our Pioneer series for a lifetime and since we have been in business for over 30 years, that's a guarantee you can stand by.

With PIONEER by Vanguard, ADVENTURE STARTS HERE.
