

Clinically Validated

eKare inSight™

*Setting the New Standard
in Wound Assessment*

EVIDENCE

Accurate and consistent 3D wound measurement, including depth and volume, directly on your tablet at the point of care.

SIMPLICITY

No calibration or reference markers necessary. Obtaining accurate 3D measurement is as simple as taking a photo using your tablet.

ACCESS

Securely access and share clinical images and informatics anywhere with any device through eKare's HIPAA-compliant cloud platform.

COMPLIANCE

From skilled nursing facilities to hospitals to HBO centers, inSight™ aids in ensuring compliance through workflow optimization and automated documentation.
