

# TWO LEADING COMPANIES. A NEW FUTURE FOR SUSTAINABILITY IN MULTIFAMILY.

How do you bring sustainability, recycling and composting to every community nationwide? By combining two leading companies in the pursuit of one vision – to be the premier services provider to the Multifamily Housing Industry.

Heath Hallada and the Green Door Valet Team are now Valet Waste. Building on the mission of Green Door Valet to be the most sustainability focused service company, Valet Waste has added a perfect complement to our current five-nights-per-week doorstep trash and recycling collection service.

We have also extended our breadth of services beyond doorstep into our continued expansion of our Maintenance Plus division, to truly be the nationwide services provider our Multifamily partners desire.

We will grow our sustainability platform, which will positively impact millions of households across the country and create a better tomorrow for all of our communities, our industry and our environment.
