From award-winning filmmaker David Conover of "*Sunrise Earth*", a 4K journey to twenty of the most spectacular locations in the world.

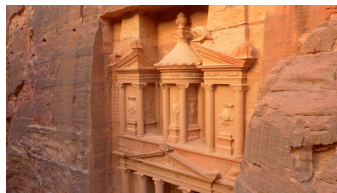

"For each episode, the soundtrack is the natural sounds of the ages: wind, water, and life. There's no narration. That's different. We shot and delivered it in 4K to maximize immersive potential. That's different. Lastly, the camera never stops moving, just like life."

David Conover, Creator of *Big Picture Earth*

A mindful exploration of great locations across the planet. 4K cameras capture the beauty and quiet from Stonehenge to the canals of Venice to the wild places of the world.

Stonehenge, United Kingdom

Petra, Jordan

Venice, Italy
