

Charge Ahead with Transaction Services

The rise of Internet shopping and growth of off-price retailing are mega-trends reshaping the retail industry. Traditional U.S. retailers will be forced to emphasize low cost operations. As a result, retailers will have to look at their cost structure and decide how to be lean and competitive.

As credit card usage continues to grow, the cost of accepting credit cards puts additional pressure on your operating performance and bottom line.

Transaction Services (TRX) is the leading payment card processing solution for merchants looking to improve their financial performance. We have deep industry knowledge in electronic payments and merchant platform technology.

We provide customized solutions, including surcharging, along with the highest quality of service, flexibility, and visibility to oversee performance. With our merchants, we Charge Ahead together.

WE ALSO OFFER

- Unique ability to recoup some of the fees you are assessed
- Seamless, turn-key and fast setup
- Unmatched visibility into your transactions and related payments
- High-touch client service + leading technology = powerful payments partner

Whether you are a new business or just changing providers, we can have you up and running in no time at all. Visit www.trxservices.com or call 888-933-8797
