

# Protect Your Brand. Mitigate Risk.

FoodLogiQ Connect is the food safety and traceability software platform built specifically for the food industry. Connect enables you to achieve end-to-end visibility while supporting safe and high quality food products across your supply chain.

## BUILD A COMMUNITY of Supply Chain Partners

With FoodLogiQ Connect, build a branded online supplier community, onboard your suppliers all at once and stop using spreadsheets to manage your supply chain. Input your documentation, product, location and event information in one place and validate supplier compliance with your food safety and sustainability standards.

## MANAGE & MONITOR Your Supply Chain

Manage and monitor your supply chain with audits and assessments. Capture quality incidents and report them directly to your suppliers in real-time with FoodLogiQ Connect. Our software allows you to capture quality incidents anywhere – at the farm, in a pack house, at the store. We enable incident reporting across your supply chain to remove bad product and recoup costs.

## ACHIEVE END-TO-END Traceability

Achieve end-to-end, lot-level traceability and see exactly where your product is at all times with FoodLogiQ Connect - especially when it matters most during a withdrawal or investigation. Connect gives you access to the data needed to take swift action when faced with a recall or outbreak. Trace forward and back across every step of your entire supply chain.

## End-to-End Visibility

Get the intelligence you need to manage product and supplier issues—and the effects across your supply chain—fast.

## FoodLogiQ On the Go

Arm your supply chain partners with the mobile solutions needed to monitor a modern supply chain.

## Professional Onboarding

Work together with FoodLogiQ Customer Success teams to get your supplier community up and running smoothly.

## FoodLogiQ Connect

Food Safety Compliance Management: Prepare your company for the Food Safety Modernization Act, reduce time spent on managing suppliers in spreadsheets, and deliver your brand promise to your customers.

Quality Incident and Withdrawal Management: Capture quality incidents and report them to your suppliers. When needed, manage product withdrawals and launch food safety investigations.

End-to-End Supply Chain Traceability: Monitor the movement of your products and get a real-time visualization of your supply chain. Trace back to find the root cause and trace forward to act quickly.

## With your FoodLogiQ Connect subscription, get access to:

- Our Network of 2000+ suppliers already onboarded in Connect
- Best-in-class traceability built on GS1 Standards
- Industry-leading templates for 2nd/3rd party audits and assessments
- Smooth onboarding working with our Customer Success teams to get your suppliers up and running
- Open and easy API integration to upload or integrate existing data sources
- Backing of food safety experts with experience dealing with food recalls and investigations

## Why FoodLogiQ?

FoodLogiQ helps restaurant operators, food retailers, consumer packaged goods companies and other food companies achieve end-to-end traceability with proven ROI while supporting safe and high quality food products across their supply chains. We offer the most comprehensive lot-level supply chain visualization software focused solely on the food industry - all with the backing of food safety experts with experience in handling recalls and investigations.

We're on a mission to connect the world's food supply chain - will you join us?

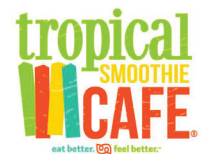

"FoodLogiQ brings creative solutions and valuable industry knowledge to the table, they care about our success and have been a great partner."

MATT ROGERS,  
SENIOR GLOBAL  
PRODUCE COORDINATOR,  
WHOLE FOODS MARKET

"FoodLogiQ has been a true partner in Chipotle's journey to develop a whole-chain traceability solution. They've worked shoulder to shoulder with us and our supply chain partners to help remove obstacles and create something that will truly be a positive force; not only to help Chipotle continue to deliver on our brand promise of Food With Integrity - but to elevate the entire food industry."

HEIDI WEDERQUIST, FORMER  
DIRECTOR OF QUALITY  
ASSURANCE & FOOD SAFETY –  
SUPPLY CHAIN,  
CHIPOTLE MEXICAN GRILL

"We've realized there aren't many solutions out there—especially not as comprehensive as FoodLogiQ."

JAMIE DAVIS,  
SUPPLY CHAIN DIRECTOR,  
TROPICAL SMOOTHIE CAFE
