B2BGATEWAY'S CLOUD BASED EDI TECHNOLOGY HELPS END USERS TIGHTEN THE SUPPLY CHAIN AT SCALING NEW HEIGHTS, 2016.

May 24, 2016 | Atlantis, Paradise Island, Bahamas – B2BGateway, a leading global EDI solution provider, announced today at Scaling New Heights fully integrated EDI solutions for QuickBooks Online, Exact Online and Xero accounting software end users. B2BGateway's fully integrated, cloud based EDI solutions will tighten the end users supply chain by drastically reducing the errors and costs associated with manual data entry.

Scaling New Heights is a unique, financial software based conference that focuses on practical, cutting edge professional education, fostering networking relationships among the most successful financial software consultants in the country and providing resources that empower consultants to grow their practices, expand their consulting services, master new products, and maximize professional relationships. B2BGateway is a sponsor of the 2016 Scaling New Heights conference which takes place at the Atlantis Resort, Paradise Island in the Bahamas.

EDI has become best business practice in the transfer of electronic business documents such as Purchase Orders, Invoices, Shipping Notices, Inventory Updates, Acknowledgements, etc., between trading partners and is highly popular in market verticals such as Wholesale Distribution, Retail, Manufacturing, Healthcare, Automotive and Finance.

By integrating with B2BGateway's cloud based EDI solution the QuickBooks Online, Exact Online or Xero user can be compliant in all internationally recognized EDI standards and communication protocols such as ANSI X12, EDIFACT, Tradacoms, oioUBL, PEPPOL, VAN, AS2, etc. Full integration also removes the need for the end user to re-key data when exchanging electronic business documents with trading partners, leading to greater accuracy, increased labor efficiencies and expediting the order-to-payment cash cycle with customers.

"B2BGateway is yet again a proud sponsor of Scaling New Heights. We are especially excited this year to announce our fully integrated EDI solutions for QuickBooks Online, Exact Online and Xero", states Roger Leyden, Director of Global Business Development at B2BGateway, "At the conference we will demonstrate to the end user how a cloud based, fully integrated EDI solution and backend business software suite can tighten and improve the users supply chain by reducing errors, cutting costs and improving overall efficiencies."
