# HOW PLANT-BASED PLASTICS ARE MADE

## Supports Corporate Sustainability & Social Responsibility Programs

- Significant growth of Corporate Sustainable Reporting initiatives from Fortune 500 to 5000
- Corporate focus on sustainability means greater demand for Biobased products

## Federal Government Commitment to Biobased Products

- The 2002 and 2008 Farm Bills established a Biobased markets program to increase the purchase and use of Biobased products. USDA, the lead agency for this part of the Farm Bill, refers to the program as BioPreferred® program
- Executive Order 13514 Sec. 1, Federal Leadership in Energy, Environmental, and Economic Performance requires that 95% of eligible new contracts and contract modifications require the use of Biobased products
- Executive Order 13693 Sec. 3, Planning for Federal Sustainability in the Next Decade, requires the establishment of annual target for BioPreferred and Biobased purchases until 95% is reached
- Executive Order 13423 Sec. 2, Strengthening Federal Environmental, Energy, and Transportation Management
- FAR Subpart 23.7 contains specifics regarding Contracting for Environmentally Preferable Products and Services
- FAR Part 13 contains specific requirements for the Purchase of Biobased Products as required by the 2002 Farm Bill
- Exceeds all other Environmentally Preferred Products (EPP) on the market
- Not an Essentially The Same (ETS) Product
- Product origin – USA

## USDA BioPreferred Program Certified

The goal of the BioPreferred program is to increase the purchase and use of biobased products. The increased development, purchase, and use of biobased products reduces our nation's reliance on petroleum, increases the use of renewable agricultural resources, and contributes to reducing adverse environmental and health impacts.
