

## Recycling Performance

~ **98%**

OF THE MATERIAL WE  
PROCESS IS RECYCLED

OVER **3.49 Million**  
tons recycled in 2015

OVER **3.55 Million**  
tons moved in 2015

OVER **7.06 Million**  
c.y. dredged material  
recycled since 1996

**25**  
reclaimed industrial  
brownfields & former landfills

OVER **5 Million**  
pounds of aerosol products  
recycled in 2015

## Industry Rankings

**#54**

**ENR Top 200**  
Environmental Firms

**#8**

**ENR New York**  
Top Specialty Contractors

**#121**

**ENR Top 600**  
Specialty Contractors

**#23**

**Waste 360**  
Waste 100 List

**#4**

**NJBiz**  
Top Recycling &  
Waste Management  
Companies

## Our Team

**15 Fixed-base Facilities**  
(9 soil, 2 dredge, 1 drill cuttings, 3 haz/TSDf)  
Multiple beneficial use sites

**1,200+**  
Customers

**350**  
Employees

**100+**  
Permits, licenses  
and certifications

## Services & Solutions

- Non-Hazardous Soil Treatment & Recycling
- Drill and Pipeline Cutting Solidification & Beneficial Reuse
- Universal Waste Recycling
- On-site Field Services & Transportation
- Aerosols & Consumer Commodities Recycling
- Hazardous Waste Disposal
- Dredged Material Processing & Beneficial Reuse
- CCP Management
- Environmental Support Services
- Construction Debris Recycling

## Why We Are Different

- We own our facilities.
- We take ownership of all material.
- We have exclusivity at beneficial use locations.
- We provide Certificates of Recycling, Destruction, and others.
- Recycled over 18.5 million tons of material in the last 5 years.
- Dedicated to converting waste streams to alternative resources.
- Operating one of the largest soil bioremediation facilities in the country.
- The only rail served RCRA Part B facility with indoor trans-loading capabilities and the ability to treat more metals-contaminated soil than any facility within the NY/NJ area.
- Operating 2 of the longest standing dredge processing facilities servicing the NY/NJ Harbor.
- Capable of recycling 2,000 aerosol cans/hour totaling 7 million cans per year.
- Provide innovative, sustainable solutions for our customer's remediation projects.

# Facility & Beneficial Reuse Locations

Faster, smarter, greener solutions.™
