

BluePrint Data Providing Internet Content Filtering for Comodo Dome

FOR IMMEDIATE RELEASE

JACKSONVILLE, Fla. – July 7, 2016 – **BluePrint Data**, the leader in high quality, OEM, integratable Internet Filtering and Parental Control security solutions, and **Comodo**, <u>a Global</u> <u>Leader in Cyber Security Solutions</u> announced the integration of BluePrint Data's Universal Resource Locator (URL) / Hypertext Transfer Protocol (HTTP and HTTPs) Internet Filtering for business into the **NEW Comodo Dome cloud-delivered security solution.** The combined products create a revolutionary portable containment technology allowing users to receive, access and execute files, with zero chance of infection.

Comodo is committed to creating trust online. With over 85 million desktop security software installations, more than 700,000 business customers and 8,000 global partners and affiliates, Comodo is a company that is built upon the very foundation of trust. Comodo believes that online security should be accessible to everyone and supports millions of users protecting their computers and online identities. By integrating the BluePrint Data OEM Internet Filtering within Comodo's new Dome product family of cloud-delivered security solutions, Comodo is able to provide high quality solutions to their customers and extend their internet security to include the ability to restrict access to certain type of web content such as pornography, gambling, drug promotion, etc.

"BluePrint Data is delighted to extend our Internet Filtering content services to Comodo and is excited for its innovative cloud-delivered security solution." said Bob Dahlstrom, CEO of BluePrint Data. "This integration is a "win-win" for both companies and extends both of our products and services to more fully protect end users."

"Comodo has been protecting users and creating trust online since 1998 and the addition of BluePrint Data's services continues our rich history of providing protection and additional security to end users and their networks" said Bulut Akisik, Project Manager for Comodo Dome. "This partnership delivers high-quality cloud-delivered internet filtering security to users, ensuring accurate content filtering customized for the task at hand."

About BluePrint Data

BluePrint Data OEMs its URL / Web site content filters, technology, and security products and services to Internet Security vendors such as Unified Threat Management (UTM), Managed Service Providers (MSP), Managed Security Service Providers (MSSP) and Software as a Service (SaaS) providers as well as providing private label / OEM services to Value Added Resellers (VARs), Information Technology Providers, Anti Virus and Anti Spam service providers, Independent Software Vendors (ISVs), and telecom, carriers, and ISPs and other companies. BluePrint Data has the world's largest 100% human reviewed URL Filter Database that is combined with tools and services to provide easy integration of the BluePrint Data OEM URL Filter database.
