## **Clay County Sheriffs Office Eats Free at Chick-fil-A, Friday, July 15<sup>th</sup>**

### **Fantastic Floors buys lunch for local police to show support**

**Jacksonville, FL, (July 14, 2016)** – Local flooring company Fantastic Floors is showing support for Clay County Sherriffs Office (CCSO) employees by offering them a complimentary Chick-fil-A meal on Friday, July 15, 2016. All Clay County Chick-fil-A locations will be offering one complimentary meal per CCSO employee, as long as they show their sheriff's office identification at the register.

Fantastic Floors hopes that by showing their appreciation of men and women in uniform, others in the community will also feel inspired to show their support for law enforcement in the area. "This is merely our way of saying thanks. We appreciate you putting your life on the line every day for our safety and the protection of our society!" says Rusty Williams, owner of Fantastic Floors.

Opportunities for CCSO employees are as follows:

**Who:** Every CCSO employee, sworn and non-sworn

**When:** Friday, July 15, 2016

**Where:** Clay County Chick-fil-A locations & the Orange Park Substation (first come, first serve)  
Participating Chick-fil-A's – from open – close  
Orange Park Substation – anytime after 11:00 am

Fantastic Floors hopes that giving back to law enforcement will offer some relief of the stress that comes with their jobs every day, especially after seeing the difficulties officers are going through right now.

"Chick-fil-A has always supported local and national law enforcement, and couldn't be happier to help Fantastic Floors show their appreciation as well," says Alex Dew, Marketing Director for the Wells Road Chick-fil-A location.

###

### **About Fantastic Floors**

Fantastic Floors is a family owned Jacksonville flooring business, specializing in the sale and installation of carpet, hardwood, tile, laminate and vinyl floors. They are located in Orange Park, Florida and serve the surrounding North Florida areas. Fantastic Floor's mission is to provide a quality product at a competitive price, with a level of service that exceeds their competition. They work with commercial builders, real estate investors, and retail customers looking to improve new and existing homes.
