## **SEATTLE, WASHINGTON PIONEERS THE FUTURE OF LAND RECORDS MANAGEMENT**

*Seattle is first city in Washington to make the move to Landmark, the latest in Land Records Management Technology*

**Sanford, FL – July 14, 2016:** Seattle, Washington recently selected Landmark from Pioneer Technology Group for their records division. This marks the first contract for Landmark in Washington, and continues Pioneer Technology Group’s expansion into the Northwest.

“We are happy to be expanding into Washington and partnering up with Seattle to help boost their productivity and add efficiencies to their workflows, said Steve Rumsey, President of Pioneer Technology Group. “We anticipate great things from this project and know that it will be one of the best installs we’ve done yet.”

Although the partnership in Seattle, Washington is the first in the company’s Washington expansion, it marks entry into the 16th state for Pioneer. Pioneer is in discussions with several other Washington Clerks for a multitude of products and services that include Benchmark court case management software, Jurymark jury management software, document and film digitization services, and of course additional Landmark deals.

Seattle’s installation of Landmark will now provide the city with eRecording queues that will result in faster documenting processes, paperless electronic workflows, and integrated imaging capabilities. The Pioneer team will be relying on decades of conversion experience with land records systems nationally to convert all of the data and images from the existing system into Landmark.

### **About Pioneer Technology Group**

Pioneer Technology Group (PTG) is a leading developer of software solutions and services to Governments and the private sector. The company, headquartered in Sanford, Florida, develops and supports the Benchmark court case management system, the Landmark official records system, the YourDox title document system, and tax processing systems for counties and municipalities. PTG also provides content management systems and a scanning services bureau for transitioning paper or film to digital images through its subsidiary, Pioneer Records Management. For more information about the company, please contact Kristina Rumsey at [krumsey@ptghome.com](mailto:krumsey@ptghome.com) or visit PTG’s website at <http://www.ptghome.com>.
