

# Continuing Education Credit Tracking

## Simple, paper-free, CE credit tracking

Tracking and reporting continuing education credits is easy with the Gather Digital event app platform. Event planners assign one or more credit types and amounts to each relevant session and define overall requirements for checking into a session. Credits may be earned by completing a survey within the app to receive credits or entering a code supplied during a session as proof of attendance. For more casual self-reporting, simple check-ins within the app may be all that is needed.

First Name	Last Name	Organization	Total Credits	Session A	Checkin Time
Rachel	Jennings	Brain Tree	8.0	-	
Gabriel	Kennson	Aspect	11.0	4	Feb 18 4:00 PM
Natalie	Lauman		not logged in	-	

## Benefits:

- Reduce or eliminate the need for manual check-ins or expensive badge scanners
- The survey check-in option allows for easy compilation and reporting of feedback
- Attendees have greater, immediate visibility into the credits they've earned so far
- Attendees can request a report and certificate at any time without troubling the event planner

## Printable PDF Certificates directly to your email

Event planners may now provide a printable PDF certificate to all attendees who have earned credits. Your attendees may request the certificate from the app or you may send the certificate to individuals from our dashboard.

Customize the certificate:

- Organization logo
- Certificate signature
- Notes
- CE sponsor label & ID
- Optional attendee form
