FOR IMMEDIATE RELEASE:

MICROSOFT DYNAMICS SL 2015 CLOUD TRIAL NOW AVAILABLE ON GOERPCLOUD

No-cost Microsoft Dynamics SL trials are being powered by goERPcloud, a provider of on-demand cloud ERP trial solutions, including Dynamics AX, GP, NAV and now for the first time, Dynamics SL.

SAN DIEGO, Calif. (August 03, 2016) New Microsoft Dynamics SL customers and current SL users who are considering an upgrade can now test drive the latest version of Dynamics SL with anytime, anywhere access through the goERPcloud.com trial system, announced goERPcloud today.

Since 2012, goERPcloud has been delivering Microsoft Dynamics AX, GP and NAV trials to help current and future customers experience Dynamics software functionality before they make a purchase or decide to upgrade. Microsoft Dynamics SL is the latest addition to goERP's Dynamics ERP trials.

"Adding Microsoft Dynamics SL to the goERPcloud ecosystem is a strategic decision which increases the footprint of our SMB marketplace and ultimately helps customers and our Dynamics VAR and ISV partners become more successful in leveraging goERPcloud," said Jeffrey DeMaria, goERPcloud Product Manager. "We are looking forward to working with our current partners as well as meeting with new partners to help deliver Microsoft Dynamics SL trial solutions."

goERPcloud helps Dynamics customers connect to Microsoft Certified Partners (Value added Resellers or VARs) and Independent Software Vendors (ISVs) through its online cloud marketplace, resource library, blog, and trial solutions. Microsoft Dynamics SL trials opened with partners in place to support SL customer needs. ISV partnerships include solutions like SK Global Software, Avalara, and Gorilla Expense with many more onboarding. Dynamics SL VARs such as Queue Associates, Templeton Solutions and InterDyn BMI have partnered with goERPcloud to support Dynamics SL trial users.

Microsoft Dynamics SL (Formerly Solomon) is an enterprise resources planning (ERP) solution and is ideally suited to power project-oriented SMBs. SL combines project management functionality and core financial management in one highly scalable and customizable solution. SL provides deeper insight into the accounting and planning of projects for construction, financial services, government contracting, professional services and distribution. Learn more in this [Microsoft Dynamics SL 2015 Capabilities Guide](#).

About goERPcloud

goERPcloud is the first on-demand Microsoft Dynamics Cloud Marketplace that allows you to test drive different flavors of Microsoft Dynamics AX, GP, NAV and SL with preconfigured 3rd party ISV applications. goERPcloud boasts a robust ecosystem of Microsoft Dynamics Partners, helping businesses find the cloud-based software solutions that best fit their current and future business needs. Since 2000 **RoseASP.com**, the power behind goERPcloud, has provided hosted Microsoft Dynamics ERP and CRM applications to businesses around the world.
