User Audit Detail Report

User Trend Comparison Chart

- Easily spot spikes in bandwidth use and Web visits in trend charts.
- View time spent online and compare trends by date range.
- Easily drill down to more detailed forensic data with interactive reporting.
- Schedule reports to run on your timetable.

Top Users Visit Chart

Technical Advantages

- **Built-In Syslog Server.** Directly connect syslog-enabled devices.
- **Bandwidth Protection.** Monitor Web sites that consume the most bandwidth.
- **Security Assurance.** Identify spyware, malware, public proxies, etc.
- **Active Directory Support.** Seamlessly integrate with Active Directory.
- **Daily List Updates.** Stay on top of Web 2.0 trends with automatic updates.
- **Minimal-Effort Administration.** Administer through the browser with ease.
- **Array Support.** Manage multi-location configurations from one server.
- **Scalability.** Handle small to large amounts of data as your company grows.
- **Adaptability.** Support log file formats regardless of proxy server or firewall.

Minimum System Requirements

- **Processor:** 2 GHz
- **Memory:** 2 GB RAM
- **Hard Disk:** 500 MB free disk space depending on log file storage needs
- **Supported Operating Systems:** Windows Server 2012/2008/2003, Windows 8 and 7, Linux: Red Hat, Fedora, CentOS, and Ubuntu

Log File Support

Cyfin supports virtually all commonly used log file formats. Examples include those generated by proxy servers, firewalls, and gateway devices from vendors such as IronPort, Palo Alto Firewall, SonicWALL, WatchGuard, ISA/TMG, Squid Proxy, and many more. Our built-in syslog server can manage the syslog data from your syslog-enabled devices.

Installation and Evaluation Support

When needed, Wavecrest provides consultation and advice via telephone or e-mail at no charge during the free trial period.

Pricing

Cyfin is a subscription-based software product that offers the industry's best value for employee Web-use monitoring and reporting. Pricing is tiered, based on the number of people ("nonconcurrent users") to be monitored. In general, the price-per-user decreases as the number of users goes up. Every Cyfin purchase includes:

- No-charge, U.S.-based technical support for the lifetime of your license
- Daily URL List updates
- Free product upgrades
- 90-day money back guarantee

Discount pricing is available for government agencies, educational institutions, nonprofit organizations, and resellers. For more information, contact Sales at 321-953-5351, Ext. 3.

Since 1996, Wavecrest Computing has provided business and government clients with reliable, accurate employee Web-access security, employee Web-use monitoring and analytics, and Cloud Access Security Broker (CASB) solutions. IT specialists, HR professionals, and business managers trust Wavecrest's Cyfin® and CyBlock® products to manage employee Internet usage with today's distributed workforce in mind—reducing liability risks, improving productivity, managing cloud services, saving bandwidth, and controlling costs.

Wavecrest has over 3,000 clients worldwide, including Blue Cross Blue Shield, MillerCoors, National Grid, Rolex, Siemens, Superior Court of California, U.S. Dept. of Veterans Affairs, and a growing list of global enterprises and government agencies. For more information on our company, products, and partners, visit www.wavecrest.net.
