Corvirtus Hiring Assessments Now Available in the Oracle Cloud Marketplace

**Oracle Cloud Customers Can Use Corvirtus to Help Companies
Hire and Retain the Right Talent**

COLORADO SPRINGS, COLO.—AUGUST 16, 2016—Corvirtus, a leading provider of hiring assessments and Gold level member of Oracle PartnerNetwork (OPN), today announced that Corvirtus Hiring Assessments are now available in the Oracle Cloud Marketplace offering added value to Oracle Human Capital Management (HCM) Cloud customers. The Corvirtus Hiring Assessments application enables HR professionals to streamline talent management efforts by shortening the time to fill a position, improving quality hires, increasing culture fit and reducing unwanted turnover.

The Oracle Cloud Marketplace is a one-stop shop for Oracle customers seeking trusted business applications and service providers offering unique business solutions, including ones that extend Oracle Cloud Applications. Oracle Cloud is the industry's broadest and most complete public cloud, delivering enterprise-grade services at every level of the cloud technology stack including software as a service (SaaS), platform as a service (PaaS), infrastructure as a service (IaaS), and data as a service (DaaS).

"We are proud to be listed in the Oracle Cloud Marketplace to provide Oracle Human Capital Management (HCM) Cloud customers with powerful assessments to help companies hire, retain and engage the right team members. This is a natural progression in our relationship as we've been working with Oracle since August 2012," stated Marta Erhard, Corvirtus CEO. "With Corvirtus' 30 years of experience working with today's hourly and corporate workforces, Oracle Human Capital Management (HCM) Cloud is a natural complement to our online assessments."

Corvirtus Hiring Assessments are ready-to-go on Oracle's platform. Corvirtus can also customize assessments to meet customer needs for hourly, management and corporate positions in industries that include restaurants, healthcare, aviation and much more.

"One key to our success is our ability to provide hiring assessments that candidates can access on many devices—from laptops to handhelds—through Oracle Talent Management Cloud," continued Erhard. "Corvirtus' participation in the Oracle Cloud Marketplace further extends our commitment to the Oracle community and enables customers to easily reap the benefits of Corvirtus Assessments. We look forward to leveraging the power of the Oracle Cloud Marketplace to help us achieve our business goals."

The Oracle Cloud Marketplace offers an intuitive user interface to browse and search for available applications and services, as well as user ratings and reviews to help customers determine the best business solutions for their organization. With its new automated application installation features, customers can easily deploy provider business applications from a centralized cloud interface.

About Corvirtus

Corvirtus products and solutions have helped hundreds of well-known brands hire, develop, engage and retain people around the globe for 30 years. As an industry leader, Corvirtus helps companies strengthen their cultures and build their business by providing talent management software and products that are ready to implement and customizable. About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) is Oracle's partner program that provides partners with a differentiated advantage to develop, sell and implement Oracle solutions. OPN offers resources to train and support specialized knowledge of Oracle's products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to be recognized and rewarded for their investment in Oracle Cloud. Partners engaging with Oracle will be able to differentiate their Oracle Cloud expertise and success with customers through the OPN Cloud program – an innovative program that complements existing OPN program levels with tiers of recognition and progressive benefits for partners working with Oracle Cloud.
