

Rigaku to promote latest X-ray analytical instrumentation at Norwegian X-Ray Conference

Rigaku Corporation
9009 New Trails Drive
The Woodlands
Texas 77381 USA

Rigaku will be in attendance at the 19th Norwegian X-RAY Conference, showcasing the company's latest analytical technology and techniques.

August 17, 2016 – The Woodlands, TX. [Rigaku Corporation](#) will be presenting its diverse lines of analytical X-ray instrumentation at the [19th Norwegian X-RAY Conference](#) in Fevik, Norway, Monday, September 5 through Wednesday, September 7, 2016. The event will be hosted by the Analytical Sciences division of the Norwegian Chemical Society.

The purpose of the conference is to bring industrial and academic experts and users of X-ray fluorescence (XRF) and X-ray diffraction (XRD) technology in Scandinavia together with manufacturers and suppliers of analysis instruments, preparation equipment and peripherals.

Rigaku will deliver informative presentations covering various XRF applications and techniques.

About Rigaku

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,400 people in the manufacturing and support of its analytical equipment, which is used in more than 70 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
