## Wood-Mizer Introduces New Line of Log Splitters

Indianapolis, IN – Wood-Mizer LLC, the world’s leading portable sawmill manufacturer, introduces three new log splitters to their diverse line of wood processing equipment. Manufactured in the USA, Wood-Mizer’s new log splitter line is designed for farm operations, small businesses, and commercial wood splitting companies.

Offering three portable, heavy-duty log splitter models, the Wood-Mizer FS300, FS350, and FS500 Log Splitters offer many unique features to the log and wood splitting market. Portability, bi-directional splitting, uniform firewood production, and an efficient and ergonomic operator location make Wood-Mizer Log Splitters a profitable investment for firewood producers. “Throughout our history, Wood-Mizer has been committed to providing the best quality equipment to process logs into marketable wood products,” said Wood-Mizer COO Darryl Floyd. “The introduction of our log splitting product line now offers firewood producers a safe and efficient product backed by the high-quality and service you expect from Wood-Mizer.”

### [FS300 Log Splitter](#)
