

# World's First Dual Screen Smartphone Now at Chinavasion

*The world's first dual screen phone with e-ink display becomes available at Chinavasion, the ecommerce store who offer the [latest smartphones](#) at wholesale prices.*

From secondary E-ink displays to voice recognition and even iris scanning security features, the smartphone industry has seen some serious changes and developments of late.

With the release of the Yotaphone 2 the [Chinese smartphone](#) industry entered a new era, that of the dual-screen always-on Smartphone. A new feature and one of the latest technological breakthroughs that is rocking the smartphone industry.

Leading Chinese smartphone specialist, Chinavasion, is among the first ecommerce companies to offer the Yotaphone 2 to the global public. Ms. Rose Li, PR Manager at Chinavasion, stated that, "Years of experience in the global electronics industry have shown us that customers are constantly searching for unique and innovative products. Only by keeping our product range up to date with the latest innovative devices, that feature the most recent electronic breakthroughs are we able to keep our global customer base satisfied."

Since launching the Yotaphone 2 on the Chinavasion web-store the company has reported a marked increase in web traffic. "Pre-order sales have risen significantly", Ms. Rose Li stated.

"The total sales for this innovative smartphone are expected to sky-rocket once the product has arrived in Chinavasion's warehouse by the end of August." Rose Li predicted.

Coming at a surprisingly affordable price, just below \$160, the Yotaphone 2 features some serious hardware. This 5 inch smartphone boasts a Qualcomm Snapdragon 800 CPU clocked at 2.26GHz, 2GB of RAM, and Adreno 330 GPU, which lends this smartphone an impressive performance, capable of meeting the most demanding users' needs.

## TWO SCREENS ARE BETTER THAN ONE

Its most striking feature, however, is naturally the phone's dual display design with a regular 5 inch Full HD display at the front and at the rear, a second, 4.7 inch E-ink, always-on Electronic Paper Display (EPD), similar to the ones found on E-readers.

Being fully customizable the EPD always-on display allows users to create a personalized dashboard, ensuring the user is always up to date with the latest news, time, weather, and social media notifications without needing to unlock the phone's front FHD display.

Every aspect of this smartphone has been carefully thought through to bring an innovative product to the market like never experienced before. "The Yotaphone 2 has truly earned the right to call itself a remarkable and unique smartphone which can be seen as a trend setter for future smartphone design." Ms. Rose Li added.

At just under \$160 the Yotaphone 2 smartphone is available at a very competitive price and joins a large range of other innovative and state-of-the-art Chinese smartphones at Chinavasion.

China [wholesale electronics](#) company, Chinavasion, is a specialist in Android smartphones, offering wholesale prices, global express shipping and 12 months warranty on all products.
