Toyoda Gosei to Enhance Weatherstrip Production Capacity in Mexico

Kiyosu, Japan, August 24, 2016: Toyoda Gosei Automotive Sealing Mexico, S.A. de C.V. (TGASMX), a Mexican subsidiary of Toyoda Gosei North America Corporation, will increase its weatherstrip production capacity approximately 50 percent by the year 2020. This growth will help TGASMX meet the rising demand caused by increasing automobile production in North America, and especially in Mexico.

In addition to increasing capacity, TGASMX will acquire land adjacent to the current building to add approximately 20 percent to its footprint. The expansion will allow for the introduction of trial manufacture equipment into the facility, helping to improve the pre-production processes as well as team member training.

The investment in these improvements will be \$35.5 million.

Outline of TGASMX

Company name	Toyoda Gosei Automotive Sealing Mexico, S.A. de C.V.
