LoadBoardKing.com

We Connect Carriers and Freight

LoadBoardKing.com is the largest shipper to carrier website in the United States. Our unique Mobile First design incorporates the latest technologies as well as a robust communication channel including email notifications and text messaging. The result: streamlined operations and profitable relationships.

Carriers: Never drive empty again.

We put high-quality loads at your fingertips with easy to interface mobile access. Our board includes FTL and LTL loads and is updated in real time as shippers post loads for containerized, reefer, flatbed and dry box freight. We move more van freight than any load board on the market.

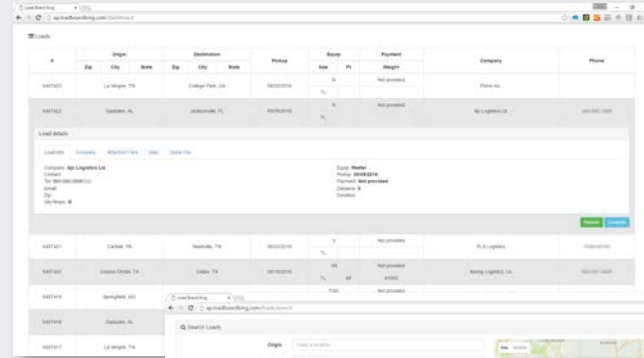

Shippers & Brokers: Find the right carrier and track your freight.

We have more than one million trucks in our network and use only licensed and insured carriers to move freight. Our robust GPS tracking provides real-time status updates from the driver while your freight is en route.

Everyone: Time is money.

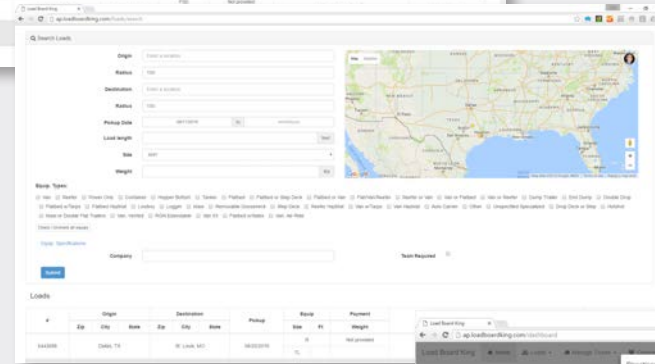

Just like you, we're focused on speed and efficiency. So with LoadBoardKing.com there's no waiting period, just sign up and go. Log on to LoadBoardKing.com from any smart phone, tablet or computer, no need to download a separate app. We have the fastest freight load board offering unlimited posting and customizable searches.

We're as mobile-ready as you are.

INSTANT LOAD BOOKING

Book online directly with shippers without making a phone call.

SET-UP ALERTS

Search and manage loads without the need of a dispatcher.

FREIGHT TRACKING

Monitor freight and receive real-time status updates from the driver en route with GPS.
