AdvantEdge Business Centers Perseveres as D.C.'s Shared Office Space Provider

Washington, DC 30th of August 2016

[AdvantEdge Business Centers](#), a leader in the Washington, D.C. executive office suites and [shared office space](#) industry for over 27 years, is excited to announce its second expansion at 2101 L St. NW within a 3-month period. On the heels of a [23,000 sq. ft. expansion](#) in May of 2016, Founder and CEO Prakash Gavri, has continued the growth streak at 2101 L St. NW by adding an additional 5,000 sq. ft. of office space. This newest addition will bring Gavri's holdings to an impressive 78,000 sq. ft. at the 21st and L Street location.

The growing business and space needs of a long-time client initiated AdvantEdge's most recent acquisition of additional space in the Central Business District. AdvantEdge built itself around the principle that its clients are the heart and soul of the company. "It is common knowledge that businesses often grow, and sometimes downsize. It is this knowledge that inspires me to be remarkably flexible to meet my clients' business needs," states Gavri. AdvantEdge has made it its prerogative to support clients throughout the on-going evolution of their companies.

Client Katharina Moeller concurs, "I love my offices at AdvantEdge Business Centers. I honestly will never have my own offices again. The staff is amazing, so nice and helpful and the owner is fair and always willing to work with the ebb and flow of your business. The space is beautiful and the technology top shelf!"
