

BodyGuardz' Custom-Designed Protection for Samsung Galaxy Note 7, Now Available

LEHI, UT, AUGUST 30, 2016 — **BodyGuardz®**, leader in mobile device protection, announced the availability of premium full-body protection for the Samsung Galaxy Note 7; providing reliable defense against impact, shock and scratches.

“The Samsung Galaxy Note 7 is a truly beautiful and capable device that deserves to be protected by the best,” said Ryan Noel, Senior Brand Manager, BodyGuardz. “Using only premium materials, we’ve created a comprehensive line of products that were custom designed for the Note 7, delivering a perfect fit and maximum defense.”

Available protection includes:

- **BodyGuardz Contact™ Case (\$39.95)**: Designed to provide internal and external device drop protection, this case exclusively harnesses the protective power of Unequal®; a military grade, shock-blocking technology that’s trusted by pro athletes to help reduce the risk of serious injury.
- **ScreenGuardz HD Contour (\$29.95)**: Ultra-slim and crystal clear PET that contours to the curve of the Note 7’s screen, providing edge-to-edge scratch protection. HD Contour is molded for a precision fit and easy installation.
- **UltraTough® Clear Skins™ (\$24.95)**: The ultimate self-healing, edge-to-edge “full-body” protection is made from the same material used to shield the front of vehicles from rock chips and provides your whole device with unmatched scratch protection.
- **UltraTough® Clear ScreenGuardz® (\$19.95)**: A "self-healing" poly-urethane film creates a transparent layer that provides the best scratch protection in its class. Originally engineered to protect the front of automobiles from abrasive debris, UltraTough is enhanced to meet the needs of electronic devices.

All screen protectors and full-body skins are backed by the company’s newly enhanced Advantage Program, which provides free* replacements for life.
