MVP Systems Software to Showcase JAMS V6.4 at Microsoft Ignite 2016

Learn how JAMS Job Scheduler V6.4 automates Microsoft's enterprise platforms and applications.

31 August 2016 – MVP Systems Software, Inc., a leading provider of enterprise job scheduling and workload automation software, will showcase JAMS V6.4 and its latest platform and application integrations with Microsoft technologies at Microsoft Ignite 2016, September 26 – 29 at the Georgia World Congress Center, Atlanta, GA. Ignite 2016 will bring together more than 20,000 IT professionals, IT decision makers and enterprise developers from around the world to discover new solutions and network with experts in the community.

Visit MVP Systems Software in the Expo Hall in booth #2054 to learn more about JAMS and the company.

The JAMS team will offer demonstrations of integrations with leading Microsoft products such as Windows Server, SQL Server, and Dynamics AX. They will also introduce developers to the many ways JAMS automation can be leveraged in custom .NET applications and through JAMS custom cmdlets.

More than 1,000 organizations worldwide rely on MVP's workload automation solution, JAMS, to execute, manage, monitor, and report on their most critical batch processes. Through a comprehensive .NET API and REST API, developers in the Microsoft community can integrate powerful and reliable automation directly into custom applications. MVP Systems Software is also a certified Microsoft Gold Development Partner.

"We're looking forward to exhibiting at Ignite because it gives us an opportunity to engage with so many IT pros that understand the value of workload automation," says David Kluskiewicz, VP, Marketing. "We find interest in smarter workload automation coming from both operations pros trying to do more with fewer resources as well as developers tying their applications into larger businesses processes. We're also excited about connecting with Microsoft's growing community of Azure customers who are exploring ways to bring smarter automation to their cloud infrastructure."

Azure customers can download a free trial of the JAMS Virtual Machine directly through Microsoft's Azure Marketplace.

About JAMS
JAMS is the only job scheduling system built on a .NET framework and is the first enterprise job scheduling system that can be leveraged by both IT Operations Personnel and Application Developers. With its roots in Windows, JAMS also supports running processes across a variety of operating systems (UNIX, Linux, System i, OpenVMS, etc.) and applications (PeopleSoft, SAP, SQL, Oracle, Symitar, Ecometry, etc.) To learn more about JAMS, please visit www.JAMSScheduler.com or call 800-261-JAMS.
