## **Greenville Splash Masters Awarded Colorado Time Systems Pace Clock**

Loveland, CO—September 7, 2016— Colorado Time Systems, a PlayCore company, is pleased to announce the donation of a Pace Clock Pro to the U.S. Masters swim team Greenville Splash Masters of Greenville, SC.

In partnership with U.S. Masters Swimming, Colorado Time Systems donates several Pace Clocks each year to various teams across the country. The Pace Clock Pro is a great tool for any swim team. More than just a standard pace clock, the Pace Clock Pro allows teams to utilize various timing components to measure critical moments such as start reaction times, relay exchanges, turn speed, and more.

“We were thrilled beyond belief to receive it [Pace Clock Pro],” said Greenville Splash Masters Head Coach and Director, Leslie Scott. “We are building a new Masters program at the Salvation Army Kroc Center. This facility did not have an electronic clock and the small pace clock was really difficult to see (especially for the older swimmers). We are really enjoying the benefits of having a large digital display as we work out and do sets together as a team.”

“Colorado Time Systems is a proud supporter of U.S. Masters Swimming,” said Rick Connell, Vice President and General Manager. “We appreciate the work that they do in keeping our community healthy and active.”
