

MARTIN COUNTY, FLORIDA SELECTED JURYMARK JURY MANAGEMENT SYSTEM FROM PIONEER TECHNOLOGY GROUP

The Martin County Clerk of the Circuit Court and Comptroller will be launching a new, state-of-the-art jury management system which will deliver efficiencies for the public and streamline the panel process moving forward.

The Martin County Clerk of the Circuit Court and Comptroller chose Pioneer Technology Group to install Jurymark, a state-of-the-art jury management system. Jurymark will introduce automation into Martin County Court for the first time and will simplify the County's jury processing, improving public service for their jurors of the Court. This new system will streamline the process of being selected as a juror and simplify the procedures already put in place with the court.

Ryan Crowley, Vice President of Sales & Marketing for Pioneer Technology Group had this to say: "Martin County has been a valued partner with Pioneer Technology Group after installing Axia to simplify their property tax appeals in 2012. We know they will take full advantage of the efficiencies Jurymark has to offer and are excited to see how the product will continue to grow in their Court."

With the installation of the Jurymark jury management system, Martin County will soon have a configurable panels workspace that allows users to move jurors from one panel to the next, add extra jurors to an existing panel and even multi-select jurors to set statuses on multiple jurors at one time. Jurymark also includes full accounting features and automated state reporting as well as a juror workspace with history tracking and document generation, which makes this system a one stop shop for any and all jury related matters.

Martin County marks the sixth customer to have chosen Jurymark, by Pioneer Technology Group. In 2012 Martin County went live with Axia, a value adjustment board system which allows for flexible scheduling, online payments, and instant access with real-time functionality for taxpayers. Jurymark was designed for courts of all sizes and jurisdictions. The online access, text message notification, and kiosk check-in will free up Martin County's staff for high impact activities and allow them the freedom to do more than ever imagined.

About Pioneer Technology Group

Pioneer Technology Group (PTG) is a leading developer of software solutions and services to Governments and the private sector. The company, headquartered in Sanford, Florida, develops and supports the Benchmark court case management system, the Landmark official records system, the YourDox title document system, and tax processing systems for counties and municipalities.
