If I can be of service, please contact me at info@yuyohome.com. I personally reply to all emails and I love to hear from our customers.

Kindest Regards,
Ken Furukawa
Founder: YUYOHome.com

LET'S SORT OUT ANY PROBLEMS TOGETHER

If you encounter any issues with your product, please do not leave a review about it. Instead contact us directly at info@yuyohome.com or through the Amazon messaging system. We are committed to resolving each problem, by working together with you. We want our customers to have a 5-star experience with YUYO and consider anything less to be a failure.

Why You're Going to Love Your YUYO Automatic Soap Dispenser!

You've made a great choice, and here's why.

You ordered this because you wanted a reliable automatic soap dispenser that was easy to operate and cost effective ... that is going to help you and your family to minimize the spread of germs ... and that's exactly what it's going to do for you.

In short, you're going to LOVE the results. In fact, why don't I explain...

Here Are 4 Great Things That Your YUYO Automatic Soap Dispenser Will Do For You!

“Just got my soap dispenser the other day and love it already! Not only does it keep everyone’s hands clean, but it keeps my bathroom sink area clean as well...” Greg H.

1. Merely by placing your hand (or a sponge) close to the motion sensor, our fully automatic unit will instantly dispense exactly the right amount of liquid soap or hand sanitizer (in either 0.5 ms or 1.0 ms bursts - it's your choice) - without you having to touch anything. No more spreading germs and harmful bacteria to the next person to wash their hands.
2. The large 15.2 fl. oz. (450 ml) capacity means you won't have to re-fill it very often and the translucent soap chamber lets you see how much is left at a glance. The four AAA batteries (not included) will last for approximately 15,000 cycles or for up to one year.
3. Although it holds 15.2 fl. oz. (450 ml), it occupies a mere 5.5 in. x 3.25 in. (14 cm x 8.3 cm) on your countertop, and is only 8 in (20.3 cm) tall, so it will fit just about anywhere you need it.
4. Cleaning it is simple - a soft dry cloth for the battery compartment and a soft damp cloth for everything else. And the included manual will show you how to get the best out of your soap dispenser.

Now that you understand the results you will experience and the technology that we are using ... I bet you'd like to know how to get the best possible results from your YUYO Automatic Soap Dispenser.

How to Get the Best Results When Using Your YUYO Automatic Soap Dispenser!

Here's how to get the best results using your new YUYO Automatic Soap Dispenser ...

- 1. This soap dispenser will work only with liquid hand or dish soap (not liquid foaming soap).** We highly recommend using liquid dish or hand soap that does not contain micro-beads. Micro-beads have the potential to clog up the pump and dispenser mouth.
- 2. This dispenser may also be used with liquid hand sanitizers that contain a low concentration of alcohol (some alcohol-based liquid hand sanitizers vary the amount of alcohol from 60 to 95 percent).** A high concentration of alcohol could possibly corrode the dispenser's electronic components.
- 3. Place the dispenser on a dry level surface.** Keep it away from wet surfaces, as the battery compartment is located on the bottom of the dispenser. Also, the soap dispenser is not waterproof so avoid immersing it in water.
- 4. The automatic soap dispenser is for indoor use only.** Avoid exposure to direct sunlight as this may damage the dispenser's sensor system.
- 5. When turning the soap dispenser on, select one of the two settings, Position I or Position II.** Position I dispenses 0.5 ms of soap and Position II dispenses 1.0 ms of soap.
- 6. When using the soap dispenser for the first time, run your hand or sponge under the dispenser several times until the soap comes out.**
- 7. Clean the exterior surface of your soap dispenser with a damp soft cloth.**

Frequently Asked Questions (FAQs) - About the YUYO Automatic Soap Dispenser

Q: Do you have a video about this product that I can watch?

A: Absolutely! Go to our YouTube Channel to watch a video about your automatic soap dispenser:

https://www.youtube.com/channel/UCLmvLbIYzfGcMEqi7fmF_Qw

Q: Can I use liquid foaming soap or liquid foaming hand sanitizer?

A: No. While the dispenser is compatible with most soaps and hand sanitizers, it is not designed to work with liquid foaming soap and liquid foaming hand sanitizers. Also, we strongly recommend against using liquid soaps that contain micro-beads, as the micro-beads could clog the dispenser.

Q: Do you have any troubleshooting tips?

A: Yes. Troubleshooting tips can be found in the User Manual, which is included with each soap dispenser. If you misplaced your user manual, please email us at info@yuyohome.com and we will gladly send you a copy.

Q: Do you have a warranty for this product?

A: Each YUYO product is backed by a 12-month manufacturer's warranty. This limited warranty covers any defects in material or workmanship under normal use during the warranty period. To register your YUYO product, please go to:

<http://www.yuyohome.com/warranty>

Q: Do you have more YUYO products for purchase?

A: We are always coming up with new product ideas. Join our VIP Club to stay informed. Click the link below to sign up:
