

TILLCHECKER®, LLC.

Tillchecker™ helps you track prices to save both time and money with your grocery buying experience. The application advises you of a) the most affordable store in your area to buy your basket of items, b) how much the total bill will be, and c) how much money you will save compared to other stores.

Registration for Tillchecker™ is free for personal use! And you will have access to an invaluable service that frees you of tedious and manual price comparisons and, most importantly, saves you a significant amount of money on the groceries you buy for yourself and your family.

Tillchecker™ can be used in a variety of ways to:

- 🎯 **Identify the store that will save you the most money.**
- 🎯 **Monitor daily or weekly price/sale changes and track these changes for you automatically.**
- 🎯 **Provide a notification on your mobile device when your favorite product goes on sale.**
- 🎯 **Suggest similar or alternative items to buy based on your spending habits.**
- 🎯 **Tell you at which stores you can find new or difficult-to-find products.**

ON THE STREET: CHECKING FOOD PRICES ONLINE
BY DARRON KLOSTER TIMES COLONIST

Rising food prices and families increasingly cramped for time led Nelson Ko to create a new web site that allows shoppers to find the cheapest grocery prices in the city.

TillChecker.com gleans weekly flyers from major chains and lets shoppers input the best prices they find. It's a free service for people who sign up and submit a list of groceries they buy each week. The lists are then filled in with the best prices from area stores -currently Thrifty Foods, Fairway Markets, Walmart, Safeway, Save On Foods and the Real Canadian Superstore.
