

# Press Release

## Rigaku Oxford Diffraction presents latest X-ray analytical solutions at 2016 Croatian-Slovenian Crystallographic Meeting

**September 20, 2016 – Bol, Croatia** [Rigaku Corporation](#) is pleased to announce its sponsorship of the 24th Croatian-Slovenian Crystallographic Meeting ([CSCM24](#)). The conference is taking place September 21st to September 25th, 2016 at the [Bluesun Hotel Elaphusa](#) in the resort town of Bol, on the island of Brač, Croatia.

The meeting is organized jointly by the [Croatian Crystallographic Association](#) and the Slovenian Crystallographic Society, under the auspices of the *Department of Mathematical, Physical and Chemical Sciences* of the *Croatian Academy of Sciences and Arts* ([HAZU](#)).

[Rigaku Oxford Diffraction](#), representing its diverse lines of single crystal X-ray diffraction ([XRD](#)) instrumentation, will conduct an oral presentation, “Advances in Crystallography” on Thursday, September 22.

### **About Rigaku Oxford Diffraction (ROD)**

ROD was formed as the global single crystal business unit of Rigaku Corporation after the acquisition of the former Oxford Diffraction organization from Agilent Technologies in 2015. ROD is a leader in the field of single crystal analysis, both in the field of chemical crystallography as well as macromolecular crystallography. Formed in 1951, Rigaku Corporation is a leading analytical instrumentation company based out of Tokyo, Japan

### **About Rigaku**

Since its inception in Japan in 1951, Rigaku has been at the forefront of analytical and industrial instrumentation technology. Rigaku and its subsidiaries form a global group focused on general-purpose analytical instrumentation and the life sciences. With hundreds of major innovations to their credit, Rigaku companies are world leaders in X-ray spectrometry, diffraction, and optics, as well as small molecule and protein crystallography and semiconductor metrology. Today, Rigaku employs over 1,400 people in the manufacturing and support of its analytical equipment, which is used in more than 90 countries around the world supporting research, development, and quality assurance activities. Throughout the world, Rigaku continuously promotes partnerships, dialog, and innovation within the global scientific and industrial communities.
