The Ohio State University’s McCorkle Aquatic Pavilion Upgrades Video Display with Colorado Time Systems

Loveland, CO—October 5, 2016— Colorado Time Systems (CTS), a PlayCore company, is pleased to announce the completed installation of a brand new 10mm SMD video display in The Bill and Mae McCorkle Aquatic Pavilion at The Ohio State University in Columbus, OH.

Ohio State upgraded their 25mm video display, which was originally installed in 2005 to newer SMD LED technology. The massive display measures 35.8 ft wide x 10.5 ft high (10.9m x 3.2m) and is capable of showing scoring information, animations, graphics, and video (live and instant replay).

“We are very happy with the new video board,” said Zach Skinner, Aquatic Director.

“The upgraded video technology is an asset to the Aquatic Pavilion,” said Rick Connell, CTS Vice President and General Manager. “We value our relationship with Ohio State, and it’s really exciting to see the installation complete at this amazing facility.”
