

Commonwealth Legal Launches *Intelligent Review*

A revolutionary document review offering that seamlessly aligns human expertise with technology efficiency.

TORONTO, ON, CANADA – October 1, 2016 – Commonwealth Legal, a division of Ricoh Canada and the Canadian leader in ediscovery solutions, is pleased to announce the launch of a brand new service offering: *Intelligent Review*.

“In a data-driven world, the traditional ‘check everything’ approach to document review is no longer sustainable,” says Jessica Lockett, B.A. (Hons), M.A., LL.B., Director Legal Solutions at Commonwealth Legal.

“Law firms and corporations are looking for creative yet practical ways to stay ahead of their growing data volumes. I am thrilled to use my legal experience and expertise to spearhead this unique offering from Commonwealth Legal, and help our clients do just that.”

“Intelligent Review is a timely solution that delivers exceptional efficiency and insight on your case.”

Challenged to handle the ever-increasing volumes of data that require review, law firms and corporations are becoming more attuned to the need to do things differently. For these organizations, the adoption of new review technologies and advanced methodologies is essential for managing review cost and timelines.

“As the market matures, we are starting to see the true merging of technology with lawyer workflows. This is giving legal teams the opportunity to take unprecedented control of the review process at a fraction of the cost,” says Jennifer Johnson, Vice President at Commonwealth Legal. “*Intelligent Review* is a timely solution that delivers exceptional efficiency and insight on your case. By taking a systematic approach to identifying key documents sooner, you are able to achieve far more than with traditional review.”

Intelligent Review from Commonwealth Legal, is a technology-driven, systematic approach that provides immediate insight and exceptional transparency and control over a legal matter. Commonwealth Legal’s growing team now includes specialized, technology-savvy eDiscovery lawyers who work directly with legal teams to implement strategic workflows and procedures.
