PROTEXTING
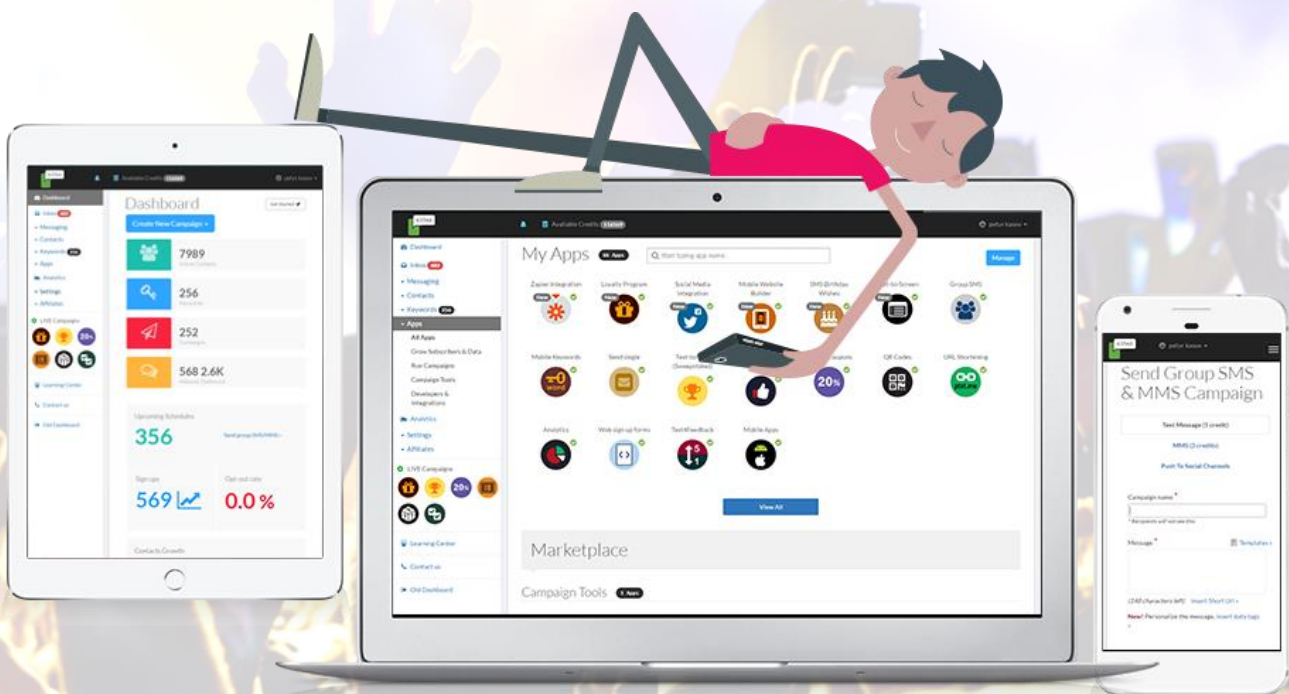

The New and Improved ProTexting 3.0 is LIVE!

After months of hard work, the ProTexing team is proud to announce our new platform design and functionality. We have been updating our ProTexing system on a weekly basis and with the help of our members' feedback we have created ProTexing 3.0. Our users will enjoy quicker access to campaigns and other sections of the platform. Managing campaigns is even easier now with the new dashboard. Even more functionalities are available now within the ProTexting accounts.

Below, are some of the updates available with ProTexting 3.0:

Improved Responsive Design
The core features will fit all screen sizes – from a mobile phone, to a tablet, to a large desktop monitor. You will be able to better manage all of you LIVE campaigns, and gain quick access to more features.

Upgraded Dashboard
The new dashboard will give a very quick and great looking overview of your account. This way you will be able to see upcoming schedules, contacts growth, opt-out rates, etc.

Fast Shortcuts to Live Campaigns
Deploying LIVE campaigns, such as Text-to-Win, Text-to-Vote, Text-to-Screen? With the new ProTexting 3.0 you will have quick shortcuts to create and access those campaigns in seconds. Many more campaigns are available in addition to those mentioned here.

Improved Navigation
In case you need to update your billing, time zone or get access to exported files or developers API, you will be able to quickly access those sections under your profile menu.

Notification Module
We have added a great new module to notify you via web, email or SMS for important account activities, such as: MMS approval, Campaigns sent, Important billing issues, etc.

Login or Sign up to your account to take advantage of those new features and boost your SMS and MMS campaigns even more!
