# MCNA DENTAL COMPLETES SOC 2 TYPE 2 CERTIFICATION

---

## PRESS RELEASE – FOR IMMEDIATE RELEASE

FORT LAUDERDALE, FL – October 25, 2016

MCNA Dental today announced that it has received a Service Organization Control (SOC) 2 Type 2 Report after successfully completing a rigorous independent audit. Our SOC 2 Type 2 report affirms that MCNA Dental's security practices, policies, procedures, and operations meet the standards for security, availability, and confidentiality set forth by the American Institute of Certified Public Accountants.

We have successfully completed annual SOC 2 Type 1 reports for several years. This is the first year that MCNA Dental has received the SOC 2 Type 2 Report, which was issued by the nationwide security, assurance, and compliance firm A-Lign®.

*"MCNA Dental is committed to the security, availability, and processing integrity of our systems. The SOC 2 Type 2 Report, which is rapidly becoming an industry standard, involves stricter requirements and uses a more meaningful audit standard than the Type 1 Report,"* said Daniel Salama, Chief Information and Security Officer for MCNA Dental. *"MCNA Dental is proud to be an industry leader and to offer our clients the assurance that we maintain the highest level of internal controls and security."*

MCNA Dental's pursuit of these reports ensures that we continue to provide services that exceed our clients' expectations amidst ever-changing business requirements. The SOC 2 report provides third-party assurance that MCNA Dental has established and maintains internal controls designed to meet the requirements for the security principles of the Trust Services Principles and Criteria for Security.
