## **Oyster Harbors Marine Wins Regulator Marine's Dealership of the Year Award During Annual Regulator Marine University Event**

November 10, 2016 (Edenton, NC) – Regulator Marine, manufacturers of the finest in offshore sportfishing boats, hosted its annual "Regulator Marine University" (RMU) event in Edenton, during which it named Oyster Harbors Marine the 2016 Dealership of the Year for its winning sales record. Regulator dealers from around the world attended the three-day event created to equip Regulator's domestic and international sales teams with valuable tools and product knowledge, as well as salute the achievements of their dealers.

"Oyster Harbors Marine was one of our first dealers, joining the Regulator team in 1995 and helping to build our reputation among a dedicated fan base," said Regulator President and Co-founder Joan Maxwell. "They've won this award seven times now as they continue to spread the love of Regulator in the Northeast. We are just thrilled to honor them again for the 2016 model year!"

"Regulator is a company that has maintained its integrity since day one and truly listens to its dealers," said Oyster Harbors Marine Principal Peter Maryott. "To this day, we are treated like we were when there were only two or three dealerships in the country – a true testament to the way Regulator operates. We are proud to be Dealership of the Year, but we can only do that because of the product, which boasts pristine quality and is a perfect fit for our New England clientele."

Oyster Harbors Marine is continuing its exemplary results into Regulator's 2017 model year with strong sales of the all-new Regulator 31, which has proven to be an immediate success since its launch this summer.

###

**ABOUT REGULATOR MARINE:** Born and built to last in Edenton, North Carolina, Regulator boats are tested against the challenging conditions of the Outer Banks, and delivered to locations throughout the U.S. and abroad. As manufacturers of premiere fishing boats ranging from the Regulator 23 to the Regulator 41, as well as custom patrol boats and stand outs like the “Indestructible Queen Bee” – a 26-foot boat that survived a 3-year, 3,500-mile unmanned trans-Atlantic journey – Regulator delivers American-made craftsmanship like no other. Regulators are designed and engineered for the most discriminating anglers in the world with a “no-compromise” philosophy for a Legendary Ride.
