

TC Services USA, Inc.
The Tax Credit Professionals

Simplify and Maximize your Tax Credits

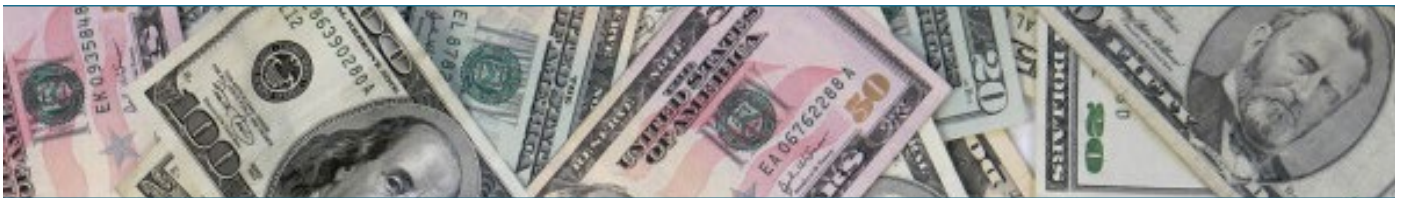

TC Services USA delivers the most sophisticated integrated technology to simplify and maximize tax credit screening for companies. Using sophisticated API technology, TC Services USA delivers a powerful yet easy-to-use tax credit screening single-page solution. This provides the highest screening results for employers to take advantage of every available tax credit.

The Work Opportunity Tax Credit (WOTC) is a Federal tax credit available to employers who hire individuals from eligible target groups. Each year, employers claim over \$1 billion in tax credits under the WOTC program. The success and growth of the WOTC Tax Credit is beneficial for all who participate, while increasing America’s economic growth and productivity.

Fact is: WOTC reduces an employer’s cost of doing business, requires little paperwork, and applying for WOTC is simple. This program can reduce an employer’s federal income tax liability by thousands of dollars each year!

Seamless Integrated WOTC Screening:

Our integrated API technology delivers a seamless experience for both job applicants and employers. Our screening delivers a single-screen dynamic interface which makes tax credit screening fast and easy to complete for job applicants. This eliminates the need for employers to manually administer completion of WOTC and other tax credit screening.

Go with the professionals:

TC Services USA has A+ Rating by the BBB and has been recommended by CPA firms nationwide.

Here’s What Others Say:

“Since adopting the TC Services USA tax credit screening process, our firm has received thousands of dollars in Federal tax credits-- with no increase in office staff, and no change in our hiring process. TC Services USA also implemented our state tax incentive programs, a boon to our company’s bottom line profits. The filing process is simple to implement and TC Service’s support is excellent. TC Services USA is so far ahead of the competition in terms of their online platform -- no one else has anything like it.”
